

Healthy Fields ~ Optimum Yields!

Sure Crop Assurance provides nutrition to enhance seed set quality and quantity

Assurance 7-10-3-2S

Balanced Foliar Nutrition

Weight Per Gallon : 10.00 lbs
Freezing Temperature: 13° F

877 US Hwy 36
Seneca, Kansas 66538
Ph. 785-336-2121

Division of Ag Connection Sales, Inc.

Assurance 7-10-3-2S

- 💧 Applied as a foliar at R1 to supply the crop with a well balanced nutrient package
- 💧 Enhances seed set quality and quantity
- 💧 Quickly assimilated by growing crops; safer for the environment, less corrosive on application equipment
- 💧 Helps protect plants from disease and population loss
- 💧 Helps recover crops stressed by hot, dry, cold, wet weather, hail, late planting, and nutrient imbalances in soil
- 💧 Helps assure the overall effectiveness of crop protection sprays

GENERAL RECOMMENDATION

SURE CROP ASSURANCE, a liquid plant food, fortified with chelated trace micronutrients to provide quality, balanced nutrition. **ASSURANCE** has been formulated with proprietary carriers to increase absorption into plant tissue.

For best results, begin application of **ASSURANCE** as soon as leaves are large enough to absorb and utilize nutrients. Continue at key crop nutrient stages during the growing season. Avoid spraying during full bloom.

ROW CROPS & CEREAL GRAINS Apply 2-8 qts p/Acre of **ASSURANCE**. Apply at key crop nutrient stages.

ALFALFA Apply 2-6 qts p/Acre of **ASSURANCE** after cutting.

COTTON Apply 1-4qts p/Acre of **ASSURANCE** prior to bloom; 2-8 applications.

VEGETABLES Apply 1-2 pts p/Acre of **ASSURANCE** at 3rd or 4th leaf stage. Apply in 7-10 day intervals.

Optimum rates of application will vary between fields, depending on crops, soil & weather conditions. For best results, follow soil and plant analysis recommendations.

ASSURANCE can be used in crop protection sprays with minimum volume of 5 gallons p/Acre by ground and 2 gallons p/Acre by air.

Consult product label for further blending, storage, and application instructions.
