Power-NK+ 2-0-20-6S

- Cost efficient, unique formulation of Nitrogen, and chlorine-free Potassium combined with Sulfur

- Activates plants' enzymatic systems, enhances chlorophyll production

- Increases a plant's ability to resist disease, insects and drought conditions

- Blends easily with other fertilizers and UAN solutions, such as 28% or 32% when blended according to label instructions

- Improves the seed set quantity and quality of a plant

- Considered "seed safe" when applied at recommended rates

- Promotes overall development of a plant-including roots and stalks
