SURE CROP

II Cor. 9:10

Quality Liquid Crop Nutrition

Healthy Fields ~ Optimum Yields!

Sure Z/Micro is a source of Zinc and fermented nutrients that stimulate germination and soil microorganisms to improve seedling vigor and nutrient recycling

Z/Micro

For the Improvement of Soil Biological Health

Weight Per Gallon : 9.10 lbs
Freezing Temperature: 23° F

SURE CROP
877 US Hwy 36
Seneca, Kansas 66538
Ph. 785-336-2121

Division of Ag Connection Sales, Inc.

Z/Micro, with 2% Zinc

- Improves soil tilth
- Decomposes crop residues
- Promotes better Nitrogen utilization-reducing the need for Nitrogen inputs
- Helps stimulate and speed germination
- Improves nutrient uptake
- Increases crop quality and yield
- Helps crops obtain their genetic potential
- Helps activate beneficial soil microorganisms
- Available in a formulation that is OMRI approved for organic use

General Recommendations

Sure Crop Z/Micro is recommended as a supplementary source of plant nutrients to be added to a total crop fertility program. For best results, refer to soil and/or plant analysis to determine crop nutrient deficiencies or imbalances.

Pre-Plant Apply 12-24 oz. p/Acre of **Sure Crop Z/Micro** with sufficient water or fertilizer solution in broadcast dribble, or band application. Incorporate 2 to 4 inches for best results.

Side Dress Apply 12 oz. p/Acre **Sure Crop Z/Micro** with starter fertilizer for row or band application.

Planting Apply 12 oz. p/Acre of **Sure Crop Z/Micro** with starter fertilizer for row or band application.

Top Dress or Foliar Apply 12 oz. p/Acre of **Sure Crop Z/Micro** with sufficient water or fertilizer solution for adequate and even coverage. Use equipment to give uniform coverage with 30 to 90 PSI for best results.

Agitate before adding to tank solution. Consult product label for further blending, storage, and application instructions.
